

Installing the TOPIGEON Club Software

If your club has two or more members using the iPigeon ETS system it makes good sense to install the TOPIGEON Club Software onto the Club's Computer ... among many benefits to be gained are the creation of a single race program that can then be synchronised to each Timer.

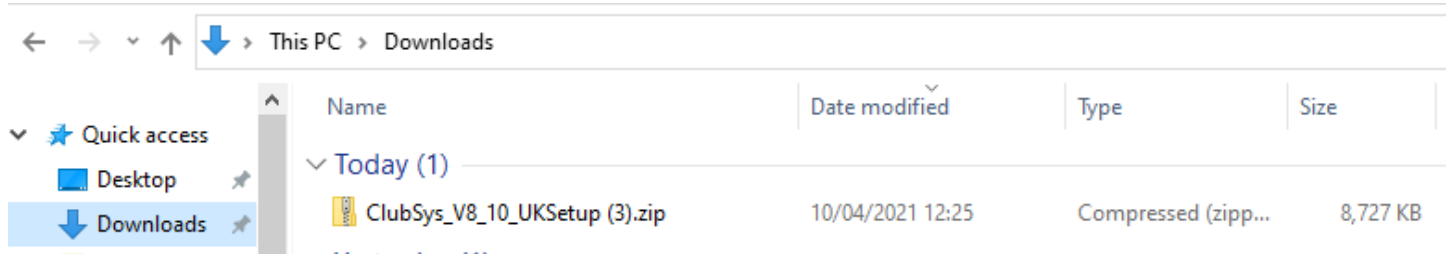

Installation process:-

Click this link to access the downloads page <https://www.pbosolutions.co.uk/ipigeon/> then click the **Download** shown below

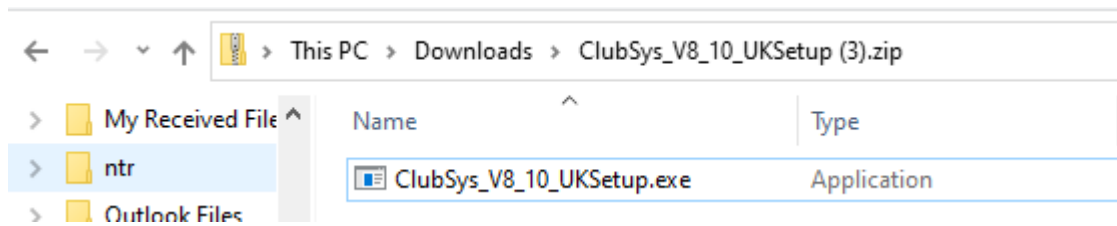

... Club Activities, Club Manager

[Club Manager software to install onto Club's computer \(ZIP file\)](#) **Download**

This will save a ZIP file into your Downloads folder on your computer

Double-click that file to expose the **exe** file

Double-click the **exe** file

Installation will commence and within a few clicks will complete
