

# Bob Short (Ferring, GB)

Auction at [www.pbosolutions.co.uk](http://www.pbosolutions.co.uk)

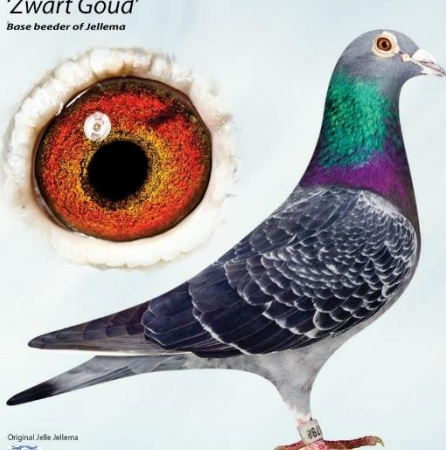

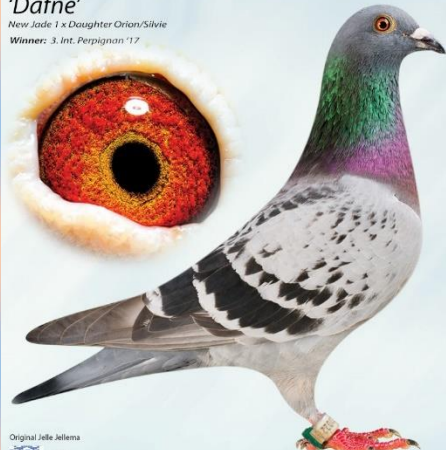

Auctioneer's forward:-

**Bob Short** is a well known and very successful fancier. A couple of house moves in recent years has eventually brought him to his current address in Ferring, West Sussex, where he quickly set about re-establishing himself in pigeon racing. Bob has always been well known for his fabulous collection of **M&D Evans** Vandenabeeles, and Mark was his first call to get a kit of stock breeders. The next call, and knowing the prowess of **Jelle Jellema** pigeons in the Internationals and Dutch Nationals, Bob approached **Dean Pallatt** (who has among the very best collection of Jellemas in the UK) and purchased 4 pairs of breeders, the plan being to generate a team of pigeons to fly the distance. However with the realisation of the problems still possibly to be encountered in flying South, plus his most local club flying North, the prospect of racing a team of pigeons consistently South at the longer distances seems remote, for the time being at least, and therefore it's with great regret that Bob is letting these Jellemas go, leaving him to concentrate on his Vandenabeeles that have served him so very well in past years.

Apart from the 8 breeders bought from Dean, also included in this sale are 7 very mature youngsters bred from Lots 1-8 (the breeders). All 15 are in great physical nick, nearly all of them are on their last flight, and so in my opinion should be suitable for early pairing to breed youngsters.

As you might expect, all the leading Jellema reference birds appear throughout the pedigrees:- ZWART GOUD, OLYMPIC ROMEE, ORION, SILVIE, SILKE, RIKA, MG430, JILL, DAFNE, SAFFIER, RENA, ROMAN, KLEINE JADE, NEW JADE 3, NEW JADE 7. You'll most likely see repeated references to these pigeons throughout this document and on the sales page on the website.

Here are just a few of those named above:-
